## PROJECTS

### Restaurant Management System

- Developed RMS with a web framework to efficiently track sales and manage orders, featuring an admin dashboard for performance analytics. This solution improved operational efficiency and enhanced customer experience through real-time insights.

### After School Nepal Website

- Developed a dynamic website for After School Nepal that allows administrators to efficiently manage and control the site structure in real-time.

### Book Sharing Platform

- Created a P2P book sharing platform during a hackathon, facilitating seamless book exchanges and fostering community engagement.
